Dual Degree Program Application

English Proficiency Form

Student First Name: ______________________  Last Name: ___________________________________

The faculty of Washington University’s School of Engineering and Applied Science approved the following requirement for the Dual Degree Program: Every student must demonstrate proficiency in reading and writing the English language.

Students entering the Dual Degree Program from affiliated institutions must satisfy this English Composition requirement and may do so by either of two routes:

1. Satisfactorily completing, prior to entry, a course determined by the Registrar of the School of Engineering to fulfill the English composition requirement. Approved courses are listed in the Outside Course Evaluations Database on our Web site: (http://registrar.seas.wustl.edu/EVALS/evals.asp).

2. Having their institution’s Dual Degree Liaison Officer complete the following statement that the student has demonstrated the level of proficiency in English Composition required of all students attending the affiliated institution. This form should be submitted with all other application materials.

To The Liaison Officer:
Some applicants to the Dual Degree Program in Engineering may not expect to list a course on their final, official transcript that could be counted as “English Composition.” Will you take whatever steps are necessary to allow you to sign the following statement of proficiency for your college or university?

The named student above has a proficiency in reading and writing the English language that satisfies the graduation requirements of our institution.
