2019 Engineering Awards Program
Nomination Guidelines

Nominees must be graduates of the School of Engineering & Applied Science (SEAS). All nominations are under consideration for three consecutive years. Award recipients are selected based on a combination of factors, the most important of which is career achievement. Career achievement need not be in the field of engineering, understanding that many qualified candidates have followed a range of professions. Additional factors considered by the selection committee include association with civic causes, professional organizations, and public service.

Three award categories are available for recognition.

**Alumni Achievement Award** distinguishes SEAS alumni who have contributed significantly to their career field and communities while upholding the highest standards and values in all aspects. Exemplary role models, these honorees inspire others to have an impact on their organizations, community, and society.

**Award Criteria Include:**
1. Honoree to be an alumnus of the School of Engineering & Applied Science
2. Honoree to have outstanding personal achievement and professional accomplishments that may include civic causes, professional organizations and public service, and/or a particular dedication to Washington University

**Engineering Entrepreneurship Award** recognizes SEAS alumni entrepreneurs who advance innovative approaches and enable novel ideas for products, inventions, and technologies that are relevant to the economy now and in the future.

**Award Criteria Include:**
1. Honoree to be an alumnus of the School of Engineering & Applied Science
2. Honoree to have a forward-thinking approach and proven record in entrepreneurial ventures or technical innovation

**Young Alumni Award** honors recent SEAS alumni (within 15 years of graduation) who demonstrate outstanding professional achievement and service to society through leadership and collaboration.

**Award Criteria Include:**
1. Honoree to be an alumnus of the School of Engineering & Applied Science and 40 years or younger
2. Honoree to demonstrate service to Washington University while a student and a continued involvement as an alum
3. Honoree shows a record of accomplishments in professional and personal development as well as an impressive career trajectory
